

Notice of Educator Access Plus (EA+) Screen Changes:

Upon loading the February 2012 release, Educator Access Plus (EA+) users will notice some minor modifications. These are basic display changes and do not affect system processing. These changes were made to keep the gradebook screen colors consistent with other Skyward software products. Changes to the EA+ main screen are noted below.

1. The screen color has been modified to match other Skyward 2.0 systems.
2. The Home Page link is now a Home button. As in the past, this feature will take the user to the main EA+ screen.
3. The Print Queue link has been changed to a button option.
4. The Account link now contains Account Information and the Change Password option.
5. The Customer Access link is now accessible under the '?' button. This area also contains documentation and other options.

These screen shots show the old Home screen (with brown colors) compared to the new Home screen in light blue colors.
