

Directions to turn off pop-up blocker if the previous directions don't work.

1. After opening up the internet with the big blue E. Right click at the top of Internet Explorer and click Menu Bar:

2. Now there should be familiar menus at the top left of the screen. Click tools, hover over pop-up blocker, click turn off pop-up blocker

If these directions still don't work. Tough!!! Just kidding, let me know and I'll try to figure it out.
